

***DARCYNANTHUS* NOM. NOV. SUBSTITUTES  
*DARCYA* (SOLANACEAE)**

ARMANDO T. HUNZIKER<sup>1</sup>

Due to a regrettable oversight, the name *Darcya* B. L. Turner & C. C. Cowan (Scrophulariaceae, *Phytologia* 4, 3: 268. 1993) was ignored by me, when I published *Darcya* Hunz. (Solanaceae, *Bol. Soc. Argent. Bot.* 35 (1-2): 163-169. 2000). Thanks to the good will of colleagues, I have been alerted about my mistake, and I hasten to propose *Darcyanthus* Hunz. nom. nov. (Solanaceae), to replace the illegitimate name; in consequence, the specific correct name should be *Darcyanthus spruceanus* (Hunz.) Hunz. comb. nov.
